### new discoveries

#### ↑ RACK 'EM UP

I've recently developed a bit of a magazine collection. This suede leather holder from designer Kriste Micheli's shop is a chic way to store them! \$65; [shopknhome.com](http://shopknhome.com)

#### ↓ SUPERBLOOM

Olive & Cocoa, known for their fabulous gifts, has partnered with designer Erin Gates on a gorgeous arrangement, featuring my favorite flower (anemone!) nestled among white roses and a mix of fresh botanicals. \$114; [oliveandcocoa.com](http://oliveandcocoa.com)

#### ↑ FLOWER POWER

Bassett McNab, a 100-year-old American textile company based in Philadelphia, has just launched a new collection that's giving me serious vacation vibes. I'd love to use this lush, tropical Wilton Reef print on a pair of plush pillows. [bassettmcnab.com](http://bassettmcnab.com)

#### ↗ LUCKY CHARMS

Joanna Buchanan's cheeky cocktail picks are like little pieces of jewelry for your drink. After a long week at the (home) office, it's nice to make Friday evening happy hour feel a little bit more special. My husband makes a mean martini...so even if I don't eat the olive, at least it looks cute. \$88; [joannabuchanan.com](http://joannabuchanan.com)

#### ↑ TEATIME

Celebrated fashion designer Adam Lippes has joined forces with Sue Jones, Co-Founder of iconic English brand OKA, to create a chic collection of fine china, glassware, and linen. This dainty teacup, with butterflies, roses, and fruit trees, has made my morning espresso feel extra fancy. \$60; [oka.com](http://oka.com)

#### ↑ ORDER UP

European-favorite plant-based meal kits startup, Simple Feast, has made its way to SoCal with plans to soon expand east. Their farm-to-doorstep meals are delicious! BONUS: They arrive mise en place and only take about 20 minutes to prepare, taking the struggle out of the daily "What's for dinner?" debate. [simplefeast.com](http://simplefeast.com)

#### ↗ CHILL OUT

Recess shook things up in the sparkling water world with CBD-infused beverages. Their new CBD-free line, Recess Mood, has magnesium L-threonate, a functional ingredient that supports mood optimization. Pop open a can for a tasty drink that will help calm the mind and lift your spirits. [takearecess.com](http://takearecess.com)
